B4  
-- What is claimed is: --

On page 2, add the following paragraph after line 33:

B5  
The TOC access mechanism specifies an actual configuration of various audio items on the unitary storage medium (e.g., the record carrier 11). Stored on the unitary storage medium is a highest level TOC file that points to the audio items, and a lowest level TOC file that points immediately to the respective contents of the audio items. Also stored on the unitary storage medium is a file-based access mechanism that includes a root directory containing item
